ISO 45001:2018 is an international standard that replaces OHSAS 18001 and can be implemented by any type of organization regardless of its objective, its products or the services it provides. It focuses on the effective control of all occupational hazards related to employees and visitors of an Organization and to the wider community. Applying ISO 45001:2018 can lead an Organization to improve its overall occupational health and safety performance.

### TRAINING COURSE:

## ISO 45001:2018 – Auditors / Lead Auditors Occupational Health & Safety Management Systems

### TRAINING COURSE

# ISO 45001:2018
